

Game Instructions

Challenge yourself, family and friends to see who is the most environmentally conscious!

You will need:

- Game board
- Choice Cards
- Fact Cards
- Dice
- Counters
- Two or more players

Aim of the game: be the first player to get from **Start** to **Finish**.

Roll the die and move your counter that number of spaces on the board.

Before the game begins, each player rolls the die and whoever gets the highest number gets to take the first turn. Play continues in a circle going left.

Fact Cards

If you land on a tree icon, the player to your left takes a Fact Card from the pile and reads you the question and multiple-choice answers. You must choose an answer from the options given. If you choose the correct answer (in green), move forward two spaces. Choose the incorrect answer (in red), you must stay where you are until your next turn.

Choice Cards

If you land on a plastic bottle icon, the player to your left takes a Choice Card from the pile and reads you the question and multiple-choice answers. You must choose an answer from the options given. If you choose the correct answer (in green), move forward two spaces. Choose the incorrect answer (in red), you must stay where you are until your next turn.

Arrows

If you land on a forward-facing arrow, move forwards one space. If you land on a backward-facing arrow, move backwards one space.

Dice

This is a chance to move forward three spaces but only if you manage to roll a three!
